FINANCIAL AND COMMERCIAL.

MONDAY, August 13. Southern Pacific was the leader of the market during the greater part of to-day's session. Dealings in the stock were on a heavy scale, many large individual trans-actions being recorded, while the price advanced to a new high record for the year. Union Pacific shared in the activity and strength of Southern Pacific, while in the latter quality both were eclipsed by Chicago and Northwestern, which made a larger gain than any other active stock and closed at its highest figure, notwithstanding a slight reaction in the general market. The volume of transactions in this stock was much above last week's average, but the other Vanderbilt issues were comparatively neglected, from which it was inferred that the buying of Northwest had some connection with the movement in the Harriman stocks. Brooklyn Rapid Transit furnished a notable exception to the general market tendency and Pennsylvania also was rather heavy. Activity was confined to a few stocks, but while operations were largely of a professional kind it was evident that they were for the most part conducted by powerful interests which would hardly engage in them if conditions were not such as to justify the higher level of prices. The United States Steel issues and the Hill stocks were strong and the report that Mr. Hill's visit to New York had some connection with the prospective deal in the ore lands found quite a little credence. Business in London was somewhat restricted on account of the settlement and foreign interest in our market was small, but after a slight reaction which occurred within the first half hour of trading the general trend of prices on the local exchange was upward. Periods of dulness occurred even among the leaders in activity, but there was at all times a degree of firmness and a good market for all stock offered. From the stock market standpoint the most important announcement of the day was that about £500,000 South African gold

had been engaged in London for shipment to New York, and although the advance of a penny an ounce in the price of bars interposed a serious obstacle it was expected that the import movement might soon assume considerable proportions. As it is now generally believed that Secretary Shaw will come to the aid of the banks should occasion require there is a feeling of confidence in banking circles that with gold imports and Treasury relief a condition of real stringency in the money market can be avoided in the coming fall. As the crop movement has started in early it is quite possible that the early return of the money sent out for this purpose will contribute with the other factors to a condition of comparative ease late in the year. Money rates were firm, both for call and time, and the exchange market showed a hardening tendency. Of adverse influences the most serious was the trouble over the rate of fare to Coney Island, and while nobody seemed to know what would have been best for the company to do under the circumstances there was a general disposition to find fault with the way the matter had been handled. The company might not have exceeded its rights—it disregarded no mandate and violated no injunction; but Judge Gaynor's opinion, whether good law or not, should have carried sufficient weight to save those who were guided by it from rough handling, while the disregard of the comfort of passengers who paid the full fare can hardly promote the popularity of the company. Earnings of Interborough Rapid Transit for the June 30 quarter made a good showing, with an increase of \$509,423 in gross for the subway division and a gain of \$741,321 for the elevated lines. Wabash for the month of June showed increases of \$386,502 and \$504,156 respectively in gross and net. Dividend action will probably be taken on Southern Pacific next week, possibly a day ahead of the declaration on Union Pacific. Exports of domestic products in July amounted to \$41,193,717, compared with \$46,293,304 in the same month last year the decline being the result of a falling off of from \$17,456,575 to \$9,580,748 in the value of cotton exported, breadstuffs and provisions showing an increase. Central of

rallied toward the close. New York Stock Exchange Sales Aug. 13

THE GRAIN MARKETS.

Trading Dull, With Narrow Changes in

Wheat closed at a small advance on covering of shorts. During the day the market moved within an extremely narrow range, with the

trading dull. Prices were somewhat firmer early in the day, owing to reports of light

country acceptances, covering of shorts and an absence of selling pressure. Liverpool advanced % to %d., and Budapest 6 kr., while Berlin was unchanged.

Later on the tone was easier, as the weather

of 118,000, against 893,000 last week and 457,000

last year.

The world's shipments were larger than

expected, amounting to 7,536,000 bush. North

The world's shipments were larger than expected, amounting to 7,536,000 bush. Northwestern advices stated that this would be the last week of large decreases in terminal stocks if the weather continues favorable.

Toward the close the tone was a little steadier. Shorts covered, and the receipts are expected to decrease by some. Omaha reported 50,000 bush. of No. 2 hard winter wheat sold for export. Stocks at Minneapolis have decreased 400,000 bush. in two days.

The trading, however, was on a small scale, with most operators disposed to await developments, especially in regard to the export trade.

The Missouri State Agricultural Department has issued a special crop regort, placing the yield of wheat in the State this season at 35,830,000 bush. The August report of the Government indicated an outturn of 31,250,000 bush.

Chicago wired to Sidney C. Love & Co: There is absolutely no trade in wheat this morning. Situation is against anything better than a scalping range unless something more radical turns up to offset the actual movement of a big crop.

St. Louis—A country elevator man says reason winter wheat farmer selling wheat so freely is that his crop threshed out nearly double what he expected and he has a big crop of everything else; no use to hold the wheat.

St. Louis—Unless we get some bull news to bring in outside business very soon this wheat market will go lower. The receipts are too big for the light local trade. The weather is perfect and soon the movement from first hands will be larger again and market will need first loass buying to hold. Minneapolis—Looks as if shorts were all in here. Winnipeg reports weather turning cooler in Manitoba and much warmer in Alberta. In Manitoba it has been moderately warm and in the west portion decidedly warm with temperature from 80 to 94; no rain.

OSOAR L. GUBELMAN, Vice-President, and WM. C. EDWARDS, Treasurer, of the Guaranty Trust Company of New York, located and doing business at No. 28 Nassau Street, in the City of New York, in said County, being duly sworn, each for himself, says the foregoing report, with the schedules accompanying the same, is true and correct in all respects, to the best of his knowledge and belief, and they further say that the usual business of said trust company has been transacted at the location required by the banking law (Chap. 689, Laws of 1892), and not elsewhere; and that the above report is made in compliance with an official notice received from the Superintendent of Banks, designating the 6th day of August. 1906, as the day THE CORN SITUATION.

Corn was firmer early in the day, influenced by light receipts and acceptances, small stocks, light offerings and overing of shorts. Bulls gave support to the near months. Commission houses were buyers.

Later on the tone became some what easier. The weather and crop reports were favorable and a larger movement of old corn is expected in the near future. The cash trade was slow.

THE OATS FEATURES.

Oats were quiet with narrow changes, but the tone was stronger in the main owing to light offerings and country acceptances and covering of shorts.

Buying was checked by favorable weather and crop reports and the sluggishness of the cash trade. The visible supply increased \$70,000 bush.

The total primary receipts were 601,000 bush., against 1,003,000 last week and 1,305,000 last year with shipments of 400,90, against 555,000 last week and 557,000 last year.

Wheat on the spot was quiet. Sales, 96,000 bush. for export at the outports. No. 2 red new, Sept. price: No. 1 northern Duluth, 5%0. over; No. 2 hard winter, 1c. over. Futures closed % to %2. higher. Sales, 1,000,000 bush. Prices as follows: notice received from the Superintendent of Banks, designating the 6th day of August, 1998, as the day as of which such report shall be made.
OSCAR L. GUBELMAN, Vice-President.
WM. C. EDWARDS, Treasurer. Severally subscribed and sworn to by both deponents, the 13th day of August, 1906, before me. [Seal of Notary] F. J. SUTTON, Notary Public No. 223, N. Y. County. Commission expires March 30th, 1908.
